Assembly

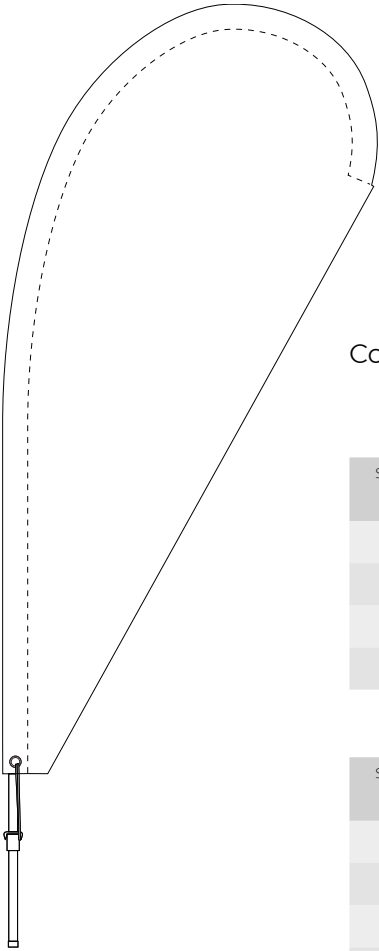

Assemble the pole in size order, large to small. This example shows assembly for the medium pole. Insert pole B into pole A and pole C into pole B.

Thread the flag onto the pole ensuring that the pole is fully inserted into the strengthened end of the sleeve, take care not to damage the sleeve.

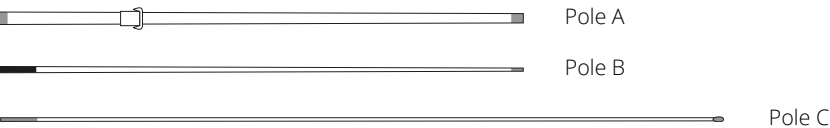

Push the clip through the back of the eyelet. A degree of force is required, you should hear a click once it is in place. Attach the bungee cord to the plastic retaining collar and adjust the tension if necessary (to avoid rippling, do not over tension the flag)
