*Bungee located in front pocket.

Technical Data - Feather Flag Rectangular

Medium Pole Assembly Example

Compatible Base Options

		Print Size		Base Options			
Size	Height (mm)	Width (mm)	Height (mm)	Cross Base* (Weighted)	Concrete Base (10kg Stackable)	Water Fillable (15kg)	Water Fillable (25kg)
S	2500	770	1760	✓	✓	✓	✓
M	3500	770	2550	✓	✓	✓	✓
L	4500	770	3350	✗	✗*	✗	✓

		Print Size		Base Options			
Size	Height (mm)	Width (mm)	Height (mm)	Ground Spike	Car Foot	Concrete Base (22kg)	Cross Base (Water Bag)
S	2500	770	1760	✓	✓	✓	✓
M	3500	770	2550	✓	✓	✓	✓
L	4500	770	3350	✓	✗	✓	✗

*Stacking two would allow compatibility for large.

Assembly

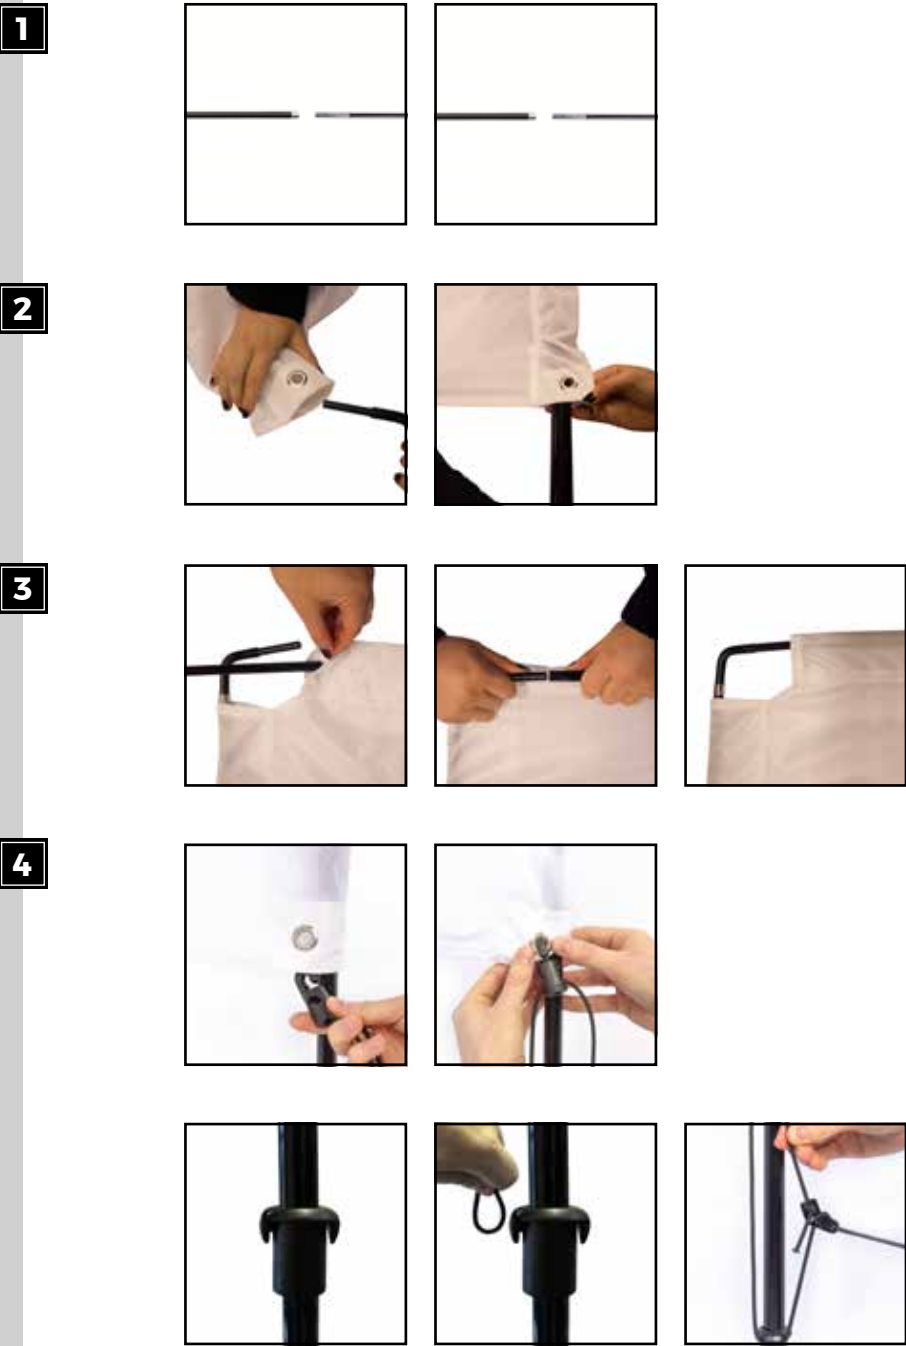

Assemble the pole in size order, large to small. This example shows assembly for the medium pole. Insert pole B into pole C.

Before attaching the top section (A), slide the flag onto the assemble sections. Ensure the eyelet is to the base of the pole.

Thread the top section (A) through the top sleeve and attach to the upright pole to secure.

Push the clip through the back of the eyelet. A degree of force is required, you should hear a click once it is in place. Attach the bungee cord to the plastic retaining collar and adjust the tension if necessary (to avoid rippling, do not over tension the flag).

We recommend leaving the bungee attached to the eyelet for safe keeping and easy install.
